Cheerful Heart
By Estep

Open E Tuning

E

A Cheerful heart is a good medicine
D/E C#mAug/E
But a crushed spirit dries up your bones
A man's own ways are deceitful and strange
But the pure are as precious stones

D/E C#mAug/E E
The wise get wiser the fools keep on foolin' themselves
And as the Way grows tighter they put on blinders and take the wider route

E
But God knows I...
D/E
Am gonna enter life...
C#mAug/E Daug/F#
With my hands held high and my head on the ground
And I pray that He...
Will set His eyes on me...
And say "Well done my faithful one!"

A faulty weight is a crooked man's fate
But honor comes to the honest man
And he who says "What is right each man decides"
Will be judged by the Maker's hand. (to pre ch to CH)

Em/G A2aug
So my child if you are wise you will delight in what is right
D/E C#mAug/E E
Oh don't devise to do evil things
And the Father of the righteous will rejoice that you are crime less
By the blood of the Risen King! (CH)

Love, Love, Love

By Estep

Someday in the blink of an eye I'll arrive

In my Abba's house on high

Up in the heavens

And He'll wrap His arms around me tight

And He'll look into my eyes

And say "Welcome home!"

And He will walk with me

Show me things no eye on earth has seen

Give the tour of His golden city

Built on bricks of love and stones we haven't heard of

And He will talk with me

I'll see His hands and understand mercy

Where the nails left gaping holes, where His blood once overflowed

Now is love, love, love. (HE IS LOVE LOVE LOVE END)

That day from His throne He will reign

Forever in the place He put His name,

And He'll make all things new

When I thirst He'll lift a glass of pure

Living water from the river flowing

Through our home...

He'll wipe each tear...

There will be no more mourning or crying here

Dm Am
He'll take His rightful place and
C G
Bring us to His mountain in joyful cheer

And He will walk with me

Run to You
By Estep

D Am Em D
All streams run to the sea
But the heat makes them so tired
The empathetic clouds perspire
Until they run again

And all the while waves the sea
Embracing each that comes
No matter where they're from
Every one is welcome

Am Em D

And the ocean it never fills up
There's always room for more
But some streams get all clogged with buildup
They never reach the shore... (Asus A)

G D A
We'll make it when we run to you
Keep my path straight as I flow into
You... You!

Stars they shine through the night
But sometimes they just burn out
When we see them fall we shout!
And we're reminded then...

Am Em
Outer space keeps on stretching
We'll keep on guessing how big?
As we pass on without answers
The stars stay lit... (to CH)

Bridge - G A Bm A G
Lord keep my light shining bright
I will fight the good fight
Till I fall into Your vast love
Oh breaking down every dam
Steering clear of dry land
I will race till I reach Your sands...oooo... (to CH)

Shout it From the Heights
By Estep

Em G C Em (Am C F Am)
High on a mountain live the watchmen
Keeping the city safe
They slight not one lest danger come
Nor turn their backs away

Am Em G Am (D Am C D)

But should the enemy
Appear beyond the rise...

Shout it from the heights!
Sound the great shofar!
Let the people all around be warned from where you are

And cares not to make it known
Each man who falls, his blood will be on
The watchman's hands alone (bridge to CH^)

Steamroll
By Estep

CAPO 2

Am

Oh I've got something to say, it's on the tip of my tongue

D

I could tear you down, I could really give you some

Am

I've got a keen-edged dagger aimed to thrust your way

G D Am

But I know better 'bout the words I say

They say that stones and sticks are the victim's culprit

But it's our leprous lips that break a gentle spirit

We'll set a forest ablaze when we utter out flames

The tongue is too wild for a man to tame.

Am

C

('Cause) We've got some kind of power in our tongue

D

The kind that we should run from

Am

C

Speaking forth life or death to the soul

D

To build us up or steamroll

C

So set a guard at my mouth

D

Am-G-D

Keep watch over the door of these lips

Oh yes there will come a day when we will all give account

Of every whispered word, every tale that we tell

And by our words we will be justified or condemned

I pray He's pleased with the things I've said

Strange Fire

F#m B C#m (Dm G Am)

That you send down from heaven who honors Your name

In His wake the dead will rise a new creation.

Woe Are We
By Estep

C#m E F#m C#m B
If He shuts up the rain in heaven
If He stirs up the raging seas
Then woe are we

If He sends upon us pestilence
If the locusts dissolve our keep
Then woe are we

C#m B F#m C#m
Woe, woe woe are we
If we don't get down on our knees
And turn from all our wicked ways
Woe are we!

For His eyes are set on zion
There His ears receive our pleas
That woe are we

There He set His name forever
His heart perpetually
Woe are we (to CH)

F#m C#m B (F#m B)
But if His people - Who are called by His name
Will humble - humble themselves and pray
And seek His face - And turn back to His ways
He'll hear our cries, forgive and bless again! (to CH)
